

This would be considered the countdown to next year's Avengers vs. X-Men event. X-Sanction has been getting a considerable amount of hype over the past couple of months, but no over-hype like with Fear Itself. This event marks Cable's return to the Marvel world. (Remember when this event was code-named Cable Reborn?) The premise seemed interesting, and after the failure that was Fear Itself, I was eager for something new. Rather than being a world-changer, this event seems to more quiet, focusing on Cable's mission to eliminate the Avengers. I haven't been too fond of the current Avengers series, so I went into this event very skeptical. All my skepticism was washed away after reading the first couple of pages. If you've been waiting to jump into the Marvel universe, now is the time. This issue is basically proof that Bendis shouldn't be writing Avengers. Jeph Loeb should write the Avengers from
