

Is Zack Snyder actually going to be able to work that stylus while wearing Ben Affleck's Batman gauntlet or was this just a staged shoot for the camera? More importantly, why is he working on Deathstroke storyboards? Batman-News.com blew up the photo and rotated it so we can get a better look at Snyder's tablet and it appears that he's looking at storyboards featuring a helmet-less, eye-patch wearing Slade Wilson. With many comic book fans convinced that the Terminator wouldn't appear in the DCEU until Ben Affleck's solo Batman film, this would appear to put that theory in doubt. #JusticeLeague #Cosplay pic.twitter.com/JwzoevN2HI — Zack Snyder (@ZackSnyder) September 29, 2016
