

var l_ttlPages = 10; var l_url = location.pathname.replace(location.hash, ""); var qs = (function(a) { if (a == "") return {}; var b = {}; for (var i = 0; i 2 && l_page A Star Wars: The Force Awakens took us back to a Galaxy Far, Far Away in style last year, but the movie's journey to becoming a reality was not an easy one. That's something which is evident in the newly released director's commentary from J.J. Abrams, but as well as shedding some light on the lengthy production, the filmmaker has also spilled the beans on some pretty massive secrets and surprises. So, from the part of Harrison Ford which had to be altered with CG to a number of new details about the story and characters like Poe
