

Apologies for the less than perfect quality, but you'll have to buy THOR on either DVD or Blu-Ray to enjoy the superior version! It came out in the US today, and is set to be released in the UK on the 26th. I got my copy last week, and not only does the movie look even more epic in HD, but there are some great featurettes and extras contained on the disc. Here's one of them, a trailer for season two of Avengers: Earth's Mightiest Heroes - looks pretty damned good, huh? There's a lot of great characters and easter eggs in there for those of us familiar with the comic books. I've not yet had chance to watch the first season, but will most definitely be hunting it down after seeing this. Be sure to share your thoughts on this footage in the usual place!
