

What's the best science fiction game series? Some might say Halo, others might say Metroid, and then there's the Mass Effect series. Mass Effect uses two of the things that make a great game: a compelling story and amazing gameplay. Over the years, comics would be released to compliment a game series. While some are fan favorites, some fall flat and earn the term 'cash in.' I had recently completed Mass Effect 2 on the PS3, (never played the first one cause I don't have an Xbox) and it's by far one of the best games I've ever played. So as the hype surrounding the upcoming third game continues, Dark Horse released a four issue mini-series called Mass Effect: Invasion. In two months the trade paperback will be released. If you haven't read the issues before, I highly recommend pre-ordering this. It does exactly what a game comic should do: Complement
