

It appears the infamous terrorist organization A.I.M. (Advanced Idea Mechanics), from the Marvel Comics Universe, will finally have a role in Marvel's cinematic universe through the next much-anticipated installment, Shane Black's Iron Man 3. Spotted on the set today, via Tumblr's HannibalDelarge, the "A.I.M" signage was among props installed to the set in Cary, North Carolina at Epic Games Studios. Check out the photo below! In the comics, according to Marvel, A.I.M. is an organization of brilliant scientists and their hirelings dedicated to the acquisition of power and the overthrow of all government by technological means. A.I.M. was organized during World War II as the scientific research division of the subversive military organization Hydra. It supplied hardware and weapons to governmental and quasi-governmental agencies. Some time after this Nick Fury of S.H.I.E.L.D. exposed A.I.M. to be a subversive organization. A.I.M.'s activities have been covert since. A.I.M. also created M.O.D.O.K.
