

Chatting with the folks exclusively at Geek Syndicate, relatively-unknown actor Alex Gonzalez discussed his mutant 'Riptide' role in Matthew Vaughn's X-Men: First Class prequel. Also discussing the thrill of portraying a villain, the ensemble cast, and an interesting tidbit regarding a major action sequence, check out what he had to say. How exciting is it to be a part of this big X-MEN world? "It's very exciting. For every actor who is starting his career, it's very different to get a film like this one, but for Spanish actors, it's a bit more difficult, especially for Spanish actors with my level of English!" How did you know the X-MEN? "I have to be honest, I haven't read a lot of the comics, but of course I watched all the movies a few times. I'm a very big X-MEN fan." "My character is Riptide. Riptide is not very popular as a villain, but in the beginning
