

Telltale Games has unleashed yet another episode of their famous video games series, The Walking Dead. Over the course of the previous three episodes, The game has evoked many emotions from me such as disgust, heartbreak, shock and even devastation, yet each episode always finds a new feeling to pull out of me. In all of my years of playing video games, I have never felt so connected to characters such as Clementine and Lee, and even the most annoying of characters like Ben and Duck allowed me to care for them. Each person in this series is genuine, acting like any person in the real world. This is not only thanks to the writers, but also the voice actors who bring these characters to life. In the newest installment written by Gary Whitta, Lee Everett and the rest of the gang arrive in Savannah following their eventful train ride. Upon arrival,
