

Chloe Sullivan was a new creation for the Smallville universe, but her presence in the show would eventually leave most fans feeling positively hateful towards the character. While Alison Mack didn't do too terrible a job, Chloe's dreadful pop culture quips and idiotic storylines (she went from a college drop-out to a tech genius with incredible weaponry and fighting skills who controlled "The League"'s Watchtower) were one of the worst parts of a show which rapidly went downhill during its final few years. One of those storylines included a relationship with Justin Hartley's Oliver Queen/Green Arrow, and while the new CW series starring Stephen Amell as the DC superhero will have no links to the Smallville universe, TV Guide recently asked her whether she would consider reprising the role. "You know, no one's talked to me about that. I'm not sure. It would have to be a really great part and
