

Geek Tyrant has come across this amazing live action recreation of a fight scene from Rocksteady's critically acclaimed Batman: Arkham City. Even wielding the iconic DC femme fatale's whip, Mickey Facchinello brings Catwoman to life in a truly epic fashion. Whether the same can be said for Anne Hathaway in The Dark Knight Rises remains to be seen. Check out the video below and sound off with your thoughts in the usual place. Batman: Arkham City expands upon the gritty, atmospheric scenery and characterization that catapulted Batman: Arkham Asylum to the forefront. It is set in a sequestered section of Gotham City that has become the home for the criminally insane. Players are introduced to a brand new story that bring together an ensemble cast of characters and villains from the Batman universe, as well as enhanced gameplay features that build upon the ultra-realistic Dark Knight experience that fans enjoyed with Batman:
