

I'm not sure about you guys, but when I heard that they were planning reshoots for The Amazing Spider-Man, I wasn't expecting this many new scenes to be revealed! Today, we see Captain Stacy (played by Denis Leary) discovering what seems to be a webbed up criminal left for the NYPD. Many didn't appreciate the lack of humor in Sam Raimi and Tobey Maguire's interpretation of Spider-Man, but if that wedgie is anything to go by, it looks like there will be plenty of that on offer here! Check out the latest batch of set photos below and be sure to head on over to Newscom for more.
