We already know from past interviews that Anthony Hopkins didn't look at a single comic book in preparation for his role as the Lord of Asgard, Odin, in the upcoming Marvel Studios movie. However, he has recently revealed that this isn't actually his first time delving into comic books as it turns out that he was once something of a fan of the genre! "When I was a kid, in the postwar years, I used to read Captain Marvel, which was sent to me by an ex-GI, an American soldier," Hopkins recalls. "And I used to read Superman - I knew all that stuff - and I guess Thor is the same genre, is it? But I haven't kept up with comics. I know it's a whole cult, all over the world, Asia and Japan, so I'm thrilled to be in it." Ah well, good to know he's been a fan (well, sort
