

Thanks to our friends over at GreenArrowTV, we now have an idea of how Deadshot may look in the series, thanks to a description by Andrew Kreisberg. They also got their hands on six new promotional images from the pilot episode, which you can see below. Deadshot's appearance in Batman: Arkham City While talking to GreenArrowTV about Deadshot (played by Michael Rowe), Andrew Kreisberg said "I think that there are going to be nods to the comic book character. If you're a fan of the comic book, you will definitely recognize Deadshot in what we are doing, in the same way that the pilot is a more grounded and realistic take on the material, our Deadshot is a more grounded and realistic take on the character than the fully costumed and masked super-villain that you see in the comics." He also commented on which distinctive features we will see, saying that "You'll definitely see
