

Deadshot returned in tonight's episode of Arrow, but it's going to be up to Oliver Queen to rescue Diggle in next week's episode of The CW drama. That's something his new recruits don't seem too keen on, and in the promo below, we see them attempting to take their mentor down! Chances are they won't succeed, but it should be interesting to see how this shakes up their dynamic moving forward. Oliver (Stephen Amell) and Lyla (guest star Audrey Marie Anderson) team up on a secret mission for Diggle (David Ramsey). Felicity (Emily Bett Rickards) finds out and disapproves of the plan and opts to stay behind. When Tobias Church (guest star Chad L. Coleman) launches a deadly assault against the city, Felicity must decide if she wants to send the recruits out sans the Green Arrow. Dermott Downs directed the episode written by Brian Ford Sullivan & Oscar Balderrama.
