

Courtesy of THR, here are a few easter eggs and spoilers to keep an eye out for while watching Arrow. - Dinah Lance works for a legal aid group called CNRI ('Canary') - The Deathstroke mask implies that Oliver was not alone on that island for five years. Someone was there teaching him, directly or indirectly, how to become a survivor and skilled fighter. -Tommy Merlyn has an evil streak that includes drugging girls at nightclubs. -Oliver's sister 'Thea' will be a drug addict which coincides with a similar characteristic of the comic book version of Speedy. -Several of the names on the list Oliver's father gives to him have deep roots in the Green Arrow mythos: -Albert Davis | a multimillionaire who married for love, and had children only to lose them when they are kidnapped and killed. Davis snaps and turns to the occult in an effort to 'protect' Star City. He notably enlists The
