This animated series follows the adventures of the infamous Marvel Comics superhero team the Avengers - primarily consisting of Iron Man, Thor, Captain America, the Hulk, Ant Man, the Wasp, Hawkeye, and the Black Panther - as they team up to save the world from dangers far too great for one superhero to handle alone. After the breakout of 74 supervillains from four major prisons throughout the nation (the Big House, the Cube, the Raft, and the Vault), the Avengers are currently working on rounding up all of the escaped supervillains and putting them back in the prison they escaped from. The Avengers frequently receive assistance on missions from S.H.I.E.L.D., a secret espionage and law-enforcement agency run by Nick Fury (while the agency isn't trying to trick and use the Avengers).
