

Some of the footage in the video shows the creature design. But to me the most spectacular feature is that you can see how the Norwegian base camp is recreated almost identically to the one you saw briefly in the 1982 version. Even the block of ice that the creature escapes from is identical. Another great piece about this footage is that you can see the locale in which they filmed. This wasn't filmed in some studio, this was done in the snow covered mountains in Canada. The look of the 1982 film, with that feeling that the location was devoid of life outside of the camp really added to the creepiness of the overall film, and this one seems to be right on target. The prequel is directed by Matthijs van Heijningen jr. The cast includes Mary Elizabeth Winstead, Adewale Akinnuoye-Agbaje, Joel Edgerton, Dennis Storhøi, Trond Espen Seim, Jørgen Langhelle, Jonathan
