

We've hit lucky Number 13 in the Baddies That Need Movie Love series and it's time we head to the world of DC Comics again. This time around, we look at one of the biggest, baddest mo-fo's that Wonder Woman has had to face. But, he has not always gone by this name, as during most of the Golden Age, Silver Age and Bronze age of comics, he went by the name of Mars, the name that is most associated with the Roman god of War. No matter what you call him, Ares has been around since the very first issue of Wonder Woman in 1942 and has proven to be a constant annoyance and foe to Princess Diana and the beautiful and dangerous women of Themyscira. The very idea of Ares', or Mars', existence goes against Diana's peaceful ways. Ares has always tried to force his ideals of war and conflict upon
