

Volume 23 of Baddies That Need Movie Love brings us back to the Marvel Universe, and a character that many speculate may have a role of some sort in the upcoming Avengers film later this year. Thanos is one of the most destructive and powerful beings in the comic book world and it is only fitting that he get a little movie love tossed his direction. On a Saturn's moon, Titan, a colony of Eternals existed and Thanos was one of the last sons of the first colonists, Mentor and Sui-San. Thanos was born misshapen and as a monstrosity compared to the other Eternals, especially compared to his brother Starfox, which caused him to become a brooding and melancholy individual, enthralled with the idea of death. He made a purpose of seeking individual power and strength, and empowered himself with cybernetic implants; a practice that was quite unusual for his people. Eventually,
