

The fourth installment in the successful Underworld franchise, Underworld: Awakening 3D, was released in January this year and grossed \$62,321,039 domestically/\$152,492,405 worldwide. Now, Sony Pictures Home Entertainment announces that the film (which stars Kate Beckinsale as Selene, a vampire negotiating her way through the war between the Vampire and Lycan species) will be released on Blu-Ray/Blu-Ray 3D on May 8th. In addition, a box set featuring all four movies in the Underworld series will be released the same day as Awakening's individual release; expect an official announcement for that to be made soon. For now, here are the bonus features that will be on the Underworld: Awakening Blu-Ray: Cracking the Underworld picture-in-picture experience Filmmakers' commentary Five behind-the-scenes featurettes: - Selene Rises - Casting the Future of Underworld - Resuming the Action - Building a Better Lycan - Awakening a Franchise, Building a Brutal New World Blooper Reel "Heavy Prey" music video by Lacey Sturm feat.
