

The highly anticipated second trailer for Green Lantern is set to be released alongside Thor in the US on May 6, but will reportedly be made available online via Yahoo! Movies a week before. Thanks to IGN Movies, we have a brief description of that footage. They then showed a new trailer, which will be attached to the May release of Thor. This trailer showed a lot more special effects, action and Oa awesomeness, including much more of a mutated Hector Hammond. My favorite bit from the trailer was Hal using his power ring to create badass .50 caliber guns out of green energy and then letting loose on his off-screen enemy. Sounds pretty good, huh? Be sure to share your thoughts on the description in the usual place! With an all star cast which includes Ryan Reynolds as Hal Jordan, Blake Lively as Carol Ferris and Mark Strong as Sinestro, director Martin Campbell's
