

IGN recently caught up with Marvel Studios President Kevin Feige to discuss Captain Marvel, and he offered some very interesting updates on what we should expect from the highly anticipated release. Asked about where things currently stand with their hunt for a director, Feige explained that while it's not essential, they're determined to find a female helmer to work on this particular adaptation. "I do think it will be not a requirement to make a great version of Captain Marvel, but it's something we think is important," he explained. "With all of our movies, we want them to be different, we want them to find the new voices. I think the fun thing is we're meeting so many great directors that we'll bring one of them onto Captain Marvel, but we have future things to come [for the others]." More on that can be found by heading on over to the site, but Feige did go on to explain why there's been a
