

Nicole Perlman, graduate of the Marvel Writers Program and contributor on the first Guardians of the Galaxy and Thor films also makes up one-half of the duo that the studio tasked with bringing Carol Danvers aka Captain Marvel to the big screen. A recent guest on The Great Big Beautiful Podcast, Perlman commented on how she and co-writer Meg LeFauve are progressing. Perlman first touched on the film's need to balance the fact that this will be Marvel's first standalone female superhero feature but that social aspect of the film doesn't need to completely define it. "I think there's a tendency to have that back and forth conversation of "Should it affect the story at all?" or "Should it affect the writing?" I think that making sure that Captain Marvel is not somebody who is a hero in SPITE of her femininity is important. She's a very strong character and her being a woman is part of that strength. I will say that
