

Thanks to That Hashtag Show (Via MCU Exchange) we have character breakdowns for the seven main Inhumans we'll be introduced to in Marvel and ABC's upcoming series. They've all been given fake names, but fans shouldn't have too much trouble figuring out their real identities based on these descriptions. Here are the breakdowns for (presumably) Blackbolt, Medusa, Maximus, Karnak, Gorgon, Crystal, and Triton: The only one of these guys not listed as a series regular is Triton, and that's probably because the expensive FX that'll be required to bring the amphibious character to life will limit his appearances. There's no mention of Lockjaw, but let's hope the Royal Family's teleporter/escort will also be included. The first 2 episodes of Inhumans will screen in IMAX theaters on September 1, with the show set to continue on ABC on September 26.
