

Marvel Legends action figures are pretty much always awesome, but this latest batch feature some of their coolest designs yet. The full gallery can be found over at Toyark, but below you'll find a selection from Marvel's Netflix TV shows, Guardians of the Galaxy Vol. 2, and various comic books. The Punisher, Mantis, and the Groot variants are particularly cool, though Luke Cage and Iron Fist figures hopefully won't be too far behind these. It also wouldn't be a bad thing to see The Kingpin and Kilgrave get the spotlight. We'll have to wait and see on those, but Guardians fans will no doubt be happy to see that the original comic book versions are also getting their own figures. Which of these toys do you think is the coolest? As always, feel free to let us know your thoughts on that in the comments section down below.
