

Comic book writer Mark Millar has shared a list of his ten favourite movies from 2016, and what's most interesting about it isn't what made the cut, but the releases which didn't! Something which is sure to surprise fans is the fact that he wasn't a fan of Captain America: Civil War, the otherwise critically acclaimed big screen adaptation of the seven part comic book event series he panned back in 2006. "Civil War had a good opening twenty mins, but then I honestly can't remember what the movie was about," he says over at Millarworld. "It's interesting the Russos have a background in comedy because it's really missing in these otherwise well-made pictures and very, very missed. I really hope this bleakness doesn't extend into their two Avengers pictures because what made that first Avengers work was the light as well as shade and I'll be sad if that's all lost like it was in this picture." I'm not sure how anyone
