

The site has been sent the following piece of art reportedly from DC's Watchmen 2 project for the planned prequel featuring Silk Spectre II. Seemingly drawn by artist Amanda Conner (who was recently linked to the comic book series) it may be our first look at how the Alan Moore and Dave Gibbons created character will appear in the controversial new series. Whether it is indeed the real deal and associated with the prequel isn't 100% confirmed at this point, but stay tuned for more details as and when they're made available. Follow @Josh_Wilding
