

Talking to Comic Book Resources in their regular "Axel-In-Charge" interview, Marvel's E-i-C commented on the success of the DC reboot and refused to confirm or deny the rampant fan speculation that Avengers Vs. X-Men will result in some sort of similar relaunch. It is of course highly unlikely that this will happen (Marvel's sales are already closing in on the post "New 52" numbers DC are achieving) but check out what Alonso had to say here. "Look, if the DC reboot had tanked, it would have been bad for everybody. With the talent associated with that reboot, the unprecedented investment they made in promoting it and the incentives they provided to retailers to order deep, they had to hit big. They got a strong launch and I give them credit. I enjoyed several of their titles -- especially the Scott Snyder/Greg Capullo "Batman" and Jeff Lemire & Travel Foreman's "Animal Man." "Our industry
