

Talking to Comic Book Resources in their regular "Axel In Charge" feature, Marvel's Editor-in-Chief Axel Alonso was quizzed about what 2012 has in store for Spider-Man. The past few years have seen Norman Osborn take a back seat as an adversary to Peter Parker (first as leader of the Thunderbolts and later as the villainous Nick Fury of the Marvel Universe) and with the former Green Goblin currently serving as an Avengers level threat, will we ever see him back as the Goblin facing off against Spidey? "It's likely you'll see Osborn battling Spidey and impacting on his world again sooner or later, but not necessarily as the Green Goblin. He's undergoing a metamorphosis into something new right now in the pages of "Avengers" and "New Avengers." "[We] want to keep the focus on Peter Parker, the guy at the center of the Marvel Universe. 2012 is looking to be a big one
