

With the political climate so, well, controversial right now, it appears as if Marvel will be taking a step back from that sort of storytelling. While Secret Empire - a very political title thanks to the involvement of writer Nick Spencer and a character like Captain America - is too far along to be changed, Bleeding Cool reports that the company will be taking a different direction with stories moving forward. Why should you care? Well, if you're fed up of seeing a teenage girl and villain as Iron Man or an "Unworthy" Thor, you'll be glad to know that a recent Marvel creative summit reportedly led to the decision to follow DC Rebirth by returning to the Marvel Universe to a place fans actually recognise. According to the site, "as Marvel brings back the X-Men line with a bang, to expect a return to more of a status quo for titles such as Thor, Iron Man, Hulk and more. A more familiar
