

One of the best comics out right now is Scott Snyder's Batman. Something that has been missing is the Batmobile. Well in issue #9 finally Batman will be debuting the Batmobile for the first time. For the past few weeks as Batman artist Greg Capullo finished up penciling issue #9, he began to mention the fact that he got to design a new Batmobile, debuting in the same issue. A few days ago he posted a teaser of what we'll be getting. Not the best look at it but it does give us an idea of how it will look. Jet engine in the back? Fantastic. What do you guys think? Source: Greg Capullo's Twitter
