

Jason Aaron had previously chatted to Newsarama about what we can expect from the new series, revealing that his take on Thor will involve three different "past, present, and future" versions of the character.. "I do flash back and show a young Thor in action, but he's actually just one of three Thors that I want to focus on. This first story is an epic tale that plays out over the course of thousands of years. So we spend time with young Thor in the Viking age — the young, hotheaded god of the Vikings, who loves to come down to Midgard and get into trouble. In the present, we see Thor the Avenger on a journey that takes him to the far corners of space, interacting with all sorts of new space gods and wondrous new locations. And then we also see old King Thor, who's the last king of Asgard,
