

The LA Times Hero Complex has gotten an exclusive first look of Superman in the upcoming DC reboot of Action Comics. Superman, seen here sporting blue jeans and a t-shirt, is a little different than the shot we saw from the rebooted self title. There is no word on if this will be his costume for the title or if they will incorporate the look we saw a couple days ago. Acclaimed writer Grant Morrison will be handling writing duties while up and coming artist Ralph "Rags" Morales will draw The Man of Steel. What do you guys think? Is this a shot of Superman in Smallville pre Super suit? Or do you think this is the direction they are going to go with for Action Comics. As usual leave your comments below.
