

The finale of THE GALACTUS SEED! Odin and Galactus are ready to fight one another to the death and only Thor and the Silver Surfer stand between them... and us! And in Fallen Asgard, Volstagg leads an unlikely army in aide of man and Asgardian alike...but what if only Loki holds the key to saving the day? MI:13 receives intelligence that people are being abducted from villages in the former Yugoslavian region -- but the British government refuses to act on it. Secret dangers summon Secret Avengers, but even the added strength of War Machine and Valkyrie are not going to prepare them for the next level in bioterror...
