

Well it seems The Bat is going to be broken all over again if this image is anything to go by. The cover to David Finch's The Dark Knight #6 is a clear homage to the classic story-line "Knightfall", in which Bane snaps Batman's spine. What do you think of this new look Bane? It's pretty much the old-look Bane in fairness. But I'm sure many of you are glad the New 52 didn't take much influence from Christopher Nolan's very different take on the character. For a four page preview of the issue, which also features an appearance by Superman, click the link below.
