

In addition to Aquaman, Green Lantern, Wonder Woman, Superman, Batman, Flash and Cyborg we have Firestorm, Deadman, Atom, Element Woman, Green Arrow, Hawkman, Mara and what we assume is Powergirl, but Bleeding Cool think it could possibly be Wildstorm's Zealot. What do you think of this new lineup? Personally I'm delighted to see Deadman, Firestorm and Atom in there, but would have preferred Hawkgirl over Hawkman! Still, interesting team anyway.
