

Thanks to MTV Geek, we have the following early designs of Captain America's new costume by artists Jerome Opena And John Cassaday. Both of them will play a major role in Marvel's NOW! relaunch with Opena working with Jonathan Hickman on The Avengers, and Cassaday teaming up with Rick Remender for Uncanny Avengers. Also below are comments from editor Tom Brevoort on the redesign, although you can find much more by clicking on the link below. Bear in mind that these are just some of the initial designs and that the final product will look a lot more like the costume seen in the finished promo images at the very bottom of the page.

"The approach and the thought was very simple: we wanted to modernize Cap's outfit so as to reflect the gear worn by actual soldiers, to convey that sense of the character visually. Every costume design change is
