

If the shocking revelation that Captain America has been a secret, brainwashed agent of HYDRA, since the end of the World War II was a little too much for you, better prepare for even more controversial twists! This April, the villainous Steve Rogers' plan will be revealed, as well as the foundations of his SECRET EMPIRE. When this is how the most trusted figure in the entire universe treats those he used to call friends, everyone has to find a place in the brave new world - even Stephen Strange. Yes, thanks to CB, Nick Spencer's SE #2 cover and official synopsis, we get a confirmation that Doctor Strange and the new Defenders - Jessica Jones, Daredevil, Luke Cage and Iron Fist - will rise against Rogers. The synopsis also implies that Dagger has a crucial role in the conflict, as well as a small tease of the Iron Man's future. The variant covers give us a hint of Hulk's (it's hard to say if it's
