

Jennifer Walters was taken out of action early on in Civil War II, and remained unaware of the fate that befell her cousin Bruce Banner due to being in a coma. Now she's awake, and is ready to begin piecing her life back together in a new ongoing series from Mariko Tamaki and Nico Leon, which will be titled Hulk. Will the new Green Goliath be able to control her rage in the pursuit of justice for her cousin, or is she destined to follow in Banner's footsteps? One thing's for sure, this is going to be a much darker book than She-Hulk fans are used to. Check out an unlettered preview below. Hulk #1 is set to hit shelves on December 28.
