

Tired of status quo changing events? Tough luck, because next up for Marvel is Secret Empire from writer Nick Spencer and artists Steve McNiven and Andrea Sorrentino. The nine issue series kicks off in May with a #0 issue going on sale the month before, and it promises to bring the past year or so's Captain America stories to a head as the Hydra controlled Steve Rogers finally unleashes his plans. "Steve has been kind of lining his dominoes up around the Marvel Universe to be able to make his move and bring about a Hydra revolution, a takeover," says Tom Brevoort. "At the point of 'Secret Empire,' they are ready to go. That's the moment we hit as we go in. We are done with the covert portion, the buildup portion of the program, 'Secret Empire' if the pyrotechnics, the big Michael Bay blockbuster, huge colossal struggles and battles across the Marvel Universe, with all of our key characters and players taking
