

Talking to IGN Comics, writer Bryan Q. Miller has talked revealingly about the upcoming Smallville: Season 11 comic book. Miller served as writer on the CW show too and will be joined on the series by artist Pere Perez. The first instalment will be released digitally on April 13th and collected into print issues as of May. Here are a few excerpts from the interview, although you can read it in full by clicking on the link below. On When Smallville: Season 11 Is Set: So in the finale, there was this seven year time jump that went to everyone seven years in the future. We are not that far in. We're six months after Clark became Superman for the first time and pushed Apokolips out of orbit, because we had a proto-Darkseid causing some chaos and Apokolips was going to crash into Earth and people were not happy! Superman saved Air Force
