

A while back we saw a teaser for Spider-Men featuring the logos of both Miles Morales and Peter Parker. It would seem fairly self explanatory, but both characters meeting is a little more complicated than it sounds. For one, Ultimate Parker is dead - would this mean a resurrection already? Or could this signal a crossover between the Ultimate and 616 (regular) Marvel universes, with Morales running into the "real" Spider-Man? Only time will tell, but for now here is a new teaser which lets us know we will get our answers in June, and that Brian Bendis will write, Sara Pichelli draw, and Jim Cheung handle the covers. This June - history will be made for the Marvel Universe. SPIDER-MEN #1 Written by BRIAN MICHAEL BENDIS Art by SARA PICHELLI Cover by JIM CHEUNG ON SALE THIS JUNE!
