

Okay, maybe you did guess. It's good ol regular 616 Peter Parker.. Now while this probably doesn't come as much of a surprise, it does eliminate one possible "Spidey" combo. Many have speculated that this series would mark the resurrection of the Ultimate version of Peter Parker, and while there is still the possibility that the right silhouette will turn out to be him, it is much more likely that it will be Miles Morales, thus confirming the rumor of an unprecedented Ultimate/616 cross-over. Expect all to be revealed pretty soon anyway. This June - history will be made for the Marvel Universe.
