

As you can see the covers are all of varying size, we will update when possible. So that just leaves Rorschach, Minutemen and Silk Spectre I guess (I assume she will be getting her own cover). In the meantime here are some quotes from an unsurprisingly pissed off Alan Moore. Via JoBlo Alan Moore is of course not pleased, responding to DC's plan by calling it "completely shameless. I tend to take this latest development as a kind of eager confirmation that they are still apparently dependent on ideas that I had 25 years ago." He then concluded his thoughts by stressing his concern that the publishing of these prequels "only [weakens] the argument that comics were an authentic form of literature. 'As far as I know,' he said, 'there weren't that many prequels or sequels to 'Moby-Dick.' Is Moore going a bit far or do you agree with him? Are you
