

This March is Marvel's Venom variant month, and thanks to CBR we have a look at the first four covers in the series. We've seen the symbiote attach itself to plenty of different characters over the years of course, but here we have "Venomized" versions of the all-new Wolverine, Amadeus Cho's Hulk, Steve Rogers, and finally Squirrel Girl's little pal, Tippy-Toe. The covers feature artwork by Francesco Mattina (All-New Wolverine #18), Tom Raney (Captain America: Steve Rogers #13), Mike Choi (Totally Awesome Hulk #17), and Kate Leth (Unbeatable Squirrel Girl #18).
