

Recently MTV caught up with X-Men Schism scribe Jason Aaron and his editor, Nick Lowe to discuss where the series is headed. Here's the best of what was discussed: MTV: Cyclops tells her [Indie], and I'm paraphrasing here, but that she should "Do whatever she thinks is right." Does that sum up where Cyclops is coming from right now in general? And if so, where does that leave Wolverine? NL: Cyclops walks a fine line that Jason completely summed up there. X-Men are called to make tough decisions more than just about any super heroes. Most heroes face impossible odds, but with the X-Men they are impossible odds with no GOOD outcome. And Wolverine, well, he seems really tired of that to me. JA: Cyclops was caught in a tough situation and made a tough call. He didn't tell Idie she had to risk her life. But he did let her know that
