What do you think? The art certainly resembles the previous leaked pics of Cap himself which turned out to be legit. It's interesting that in the image on the right Red Skull is holding the Cosmic Cube as he was shown doing in his human form in the recent pic posted by DCMF. But it could still be some fan art made to look like the real thing. If on the other hand these are legit, expect Hugo Weaving to look something like this when he is finally unveiled in live action as the villainous Red Skull. Confirm or debunk below. Update: I have confirmation that this is indeed official concept art for Red Skull. But there is a bit of hoolabaloo brewing about them being leaked so I'm not sure how long this will stay up. Captain America: The First Avenger hits theatres July 22, 2011 Thanks to "Hungry Joe" for the
