

The people over at Just Push Start have gotten their hands on some cool concept art from the canceled Superman game that the company Factor 5 was working on before they had to close their doors. The art is by artist Daveed Kaplan. The game was being developed under the code name "Blue Steel" and was heading for a 2008 release date. Superman Superman Concept Art Lex Power Suit Concept Art Darkseid Concept Art Kalibak (Son of Darkseid) Concept Art General Zod Concept Art Other than DC Universe Online and the Superman Returns video game Superman hasn't been represented in the video game medium very much, although it was announced a couple of days ago that he would be in Lego Batman 2. With the success of Batman Arkham City a lot of Superman fans have been wanting Rocksteady to take a crack at The Man of Steel. What do you guys think of this concept art? Leave
