

One of many memorable attributes of Marvel's The Avengers superhero assembly was the title sequences beautifully crafted by Method Design. And with the Joss Whedon-helmed spectacle soon to be available for home viewing, Creative Director Steve Viola has shared with Art of the Title info & images regarding the their creation. Featuring iinitial designs and a snippet of the opening title in original quality, observe below. **CLICK IMAGE TO ENLARGE** “As we honed in on our primary concepts, we had about seven that covered Joss’ key themes while incorporating others, from the Tesseract to New York City. The chosen concept actually went through a few iterations before it was ready to show. Originally, we were going with an abstract fly-through of the Helicarrier where we would come across some of the heroes’ items, but it wasn’t post-battle and it was just as much about the Helicarrier as the characters
