

Despite seemingly sacrificing herself to stop the Demogorgon in the Stranger Things season finale, it was strongly implied that powerful child psychic Eleven (Millie Bobby Brown) was still enjoying those eggo waffles somewhere, somehow. However, exec producers Matt and Ross Duffer refused to confirm that the character would return for season 2, and further doubt crept in when a new female member of the gang named Max (American Odyssey's Sadie Sink) was cast. Fortunately, TV Line has just shared some great news: Eleven is officially returning for the highly anticipated second season of Stranger Things, presumably in a series regular capacity. Stranger Things will be back at some point next year, and takes place about a year after the events surrounding Will Byer's disappearance.
